**Subject:** RE: I oppose Duke's latest rate hike for dirty energy

Dear Ms. Harvat,

This is to acknowledge receipt of your email to the Public Service Commission. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 20, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

As they have seen in Florida, there is no guarantee that any projected new plants that the fees are supposed to pay for will actually be built. This happened in Florida, but the rates never went down after the decision not to build was made.

Even more important, Duke Energy should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians. Don't buy into the business model of Duke Energy that refuses to move into the 21st century.

Sincerely,

Beth Harvat
